Noojin, Brandenburgh Are Outstanding Greeks

Martine Noojin, Alpha Gamma Delta, and Kenneth E. Brandenburgh, Delta Tau Delta, were named Outstanding Greek Woman and Man, at last night's Greek Week Banquet.

Miss Noojin and Brandenburgh were selected a secret faculty committee for their contribu-ns and leadership within their chapters, and thin the Greek system generally. Contribution campus activities and scholastic achievement re other criteria in their selection.

Miss Noojin, a senior mathematics major from Lewistown, Penn., is immediate past president of Alpha Gamma Delta sorority. She has also served as pledge trainer and first vice president of her sorority, She was a member of Junior Panhellenic Council during her freshman year as a pledge, and this past year was vice president of Panhellenic Council.

She is vice president of the senior class in the illege of Arts and Sciences, and has served on the tudent Congress Judicial Board for the past

She has been a member of Cwens, sophomore women's honorary, social chairman of Links, junior women's honorary, and Mortar Board, senior wom-en's honorary. She is also a member of Pi Mu Epsilon, mathematics honorary,

silon, mathematics honorary.

In introducing her, Mrs. Charles Palmer, assistant to the Dean of Women, said Miss Noojin was, the "almost unanimous" choice of the faculty committee. "She has not been a mere joiner, but has held a high office in all her activities," one nominating group said. Another noted her "rare combination of poise, wisdom, integrity, sincerity, and above all a sense of humor. She has contributed much to Greek life through her active support in Paphelletic and through her work with her and through her work with

Centennial Activities Start With Reception

With the issuing of a Centennial proclamation and the announcement of a Centennial device and motto Saturday President John W. Oswald opened activities leading to the University's Centennial Observance.

At a luncheon honoring the major Centennial committees President Oswald officially proclaimed calendar year 1865 as the University's Centennial year and announced that the junior class would officially be known as the Centennial Class and "that all future references to this group bear this distinctive and unique title."

Bruce F. Denbo, head of the University Press and chairman of the sub-committee on Centennial Publications, revealed the Centennial device and motto.

Centernial committee, said the University's faculty "will consider it a privilege to close this first century and an even greater privilege to help launch it into the second century."

James Syara, co-chairman of

second century."

James Svara, co-chairman of the Student Centennial Committee, said that the student body would not only accept the president's

Parking Structures Series, Fees For Faculty Approved

By RICHARD STEVENSON Kernel Daily Editor

ASHLAND-University faculty and staff will begin paying for parking Sept. 1 under a plan adopted by the Executive Committee of the Board of Trustees Friday afternoon.

The faculty-staff fee system will enable the University to begin this fall to implement the parking portion of the General Campus Plan. Two 500-car parking structures should be under construction by September. Their completion is articipated by September. completion is anticipated by Seper 1965.

tember 1965.

Acting on the unanimous recommendation of the faculty advisory committee on parking and traffic control, President John W. Oswald presented the revamped plan to the Board.

The plan calls for four divisions for parking, Academic and Administrative faculty will pay a \$36 per year fee. Staff and disabled students will pay \$24 per year. Students will continue to

pay \$10 per semester. The fourth class of parking, visitors, contains

on fee provisions.

The system will be in effect from 7 a.m. to 5 p.m. weekdays and from 7 a.m. to 12 noon on Saturdays. The plan also includes the provision for fee parking during. "all University functions." Dr. Oswald indicated that this will include athletic contests and other functions not now covered by parking fees.

A budget of \$131,200 was established to come from permit fees. \$51,140 of this will be used for the operation and personnel for the system. The other \$80,060, earmarked for "capital development," will be used to start the structure system.

structure system.

The structures, estimated to cost \$800,000 each, will be located

cost \$800,000 each, will be located between Stoll Field and the Stu-dent Center, and across Rose Street from the Men's Quad-rangle.

The third, of the seven struc-tures proposed in the Campus Plan, will be located near the Medical Center. Its exact loca-tion awaits a traffic development plan.

plan.

Larry Coleman, campus planner, indicated that the ideal plan would be to have all surface lots but that the University faced a land problem.

The non-enclosed steel and concrete structures will occupy about four acres while it would

Dr. Martin Resigns Dean Of Men's Post

By BILL GRANT, Kernel Daily Editor

ASHLAND-At its regular monthly meeting, the Executive Committee of the Board of Trustees named Dr. Ellis F. Hartford to the newly created position of Dean of the Community Colleges and was told by President John W. Oswald that Dean of Men Leslie L. Martin will resign his present position.

Dr. Hartford's appointment and Dean Martin's resignation both become effective on July 1. Dean Martin expressed the desire to return to full time teaching and research in the University's College of Education. He already holds the academic rank of professor of

Dr. Hartford was granted a two-year leave by the University in July, 1962, to serve as executive secretary of the Kentucky Council on Public Higher Education and will return to the University for his new position at the beginning of Fiscal Year 1965.

In moving to meet what Dr. Oswald called the rapid growth in community colleges, the Board:

1. Officially separated the community colleges from the Division of Extended Programs,

of Extended Programs,
2. Changed the name of the division to University Extension, and
3. Changed the title of Dr. R. D. Johnson from executive dean
of Extended Programs to dean of University Extension.
Dr. Hartford, 58, holds his bachelor and master's degrees from
the University and a doctor of education degree from Harvard

In recommending changes, President Oswald told the Executive Committee that the Dean for Community Colleges would be responsible for the University's growing system of community colleges and that University Extension would still include home study, extension class and evening class programs, workshops and conferences, community music services, and high school speech and drama festivals, In announcing to the trustees that he had granted Dean Martin's request to return to full-time teaching, Dr. Oswald said, "while we regret to lose Dean Martin as an administrator, we are thankful that the University will be able to capitalize on his abilities as a teacher and researcher."

Dr. Oswald said the University would begin a "search" for a replacement for Dr. Martin.

The Executive Committee approved setting up to a four-year In recommending changes, President Oswald told the Executive

Despite Leap Year Elopements Out Of Style

handy as it would be this year with no more than a fortnight between Valentine's Day and Leap Year Day, the elopement is going out of style.

Where marriage mills once thrived, lovers now cool their heels (and possibly their hearts) getting blood tests and marking off legal waiting periods.

Although a dozen states were still without waiting periods fol-lowing license applications—as of a survey in 1961—in all but one of these, Nevada, impetuosity was deterred by blood test certifica-

While a handful of states, be-lieve that serotology certificates (blood tests): and the 24-hour wait are sufficient coolers, in nearly all others the couples are given three to four days in which to reconsider before the big step

to reconsider before the big step. The really big exception is Mississippi which demands that love endure a 33-day wait to insure that no marriage be performed in haste there to be repented at leisure anywhere. Gretna Green on the Scottish side of the border was the traditional between few lowing English.

side of the border was the traditional haven for eloping English couples. In the United States the name is generic for "quickie" marriage mills" where any pajama-clad man owning a notary public seal could respond to the insistent door bell in the wee hours, and with his yawning negligeed wife as witness, bind an impulsive pair into holy matrimony, and collect a few bucks. But states where Gretna Greens once flourished — Kentucky, Georgia and Connecticut to name a few,—have since bowed

ore stringent-marriage legis-

Sometimes, as in the case of Greenwich, Conn., the onetime Gretnas maintain the romantic aura of former days even though the rules are changed. Connec-ticut requires a blood test by a state-approved laboratory, a four-day wait, and a final copy of any divorce previously obtained.

Thus starry-eyed twoomes drive from out of state through the countryside to the outsized hamlet not one fateful time as in the good old days. They make the first trip for the legal formalities and again four days later for the wedding rites.

Although the waiting period is

Although the waiting period is one day longer than in New York state. Connecticut remains an at-tractive lure for any New Yorker marrying a second time because it does not care where or when he was previously divorced long as the decree is final.

Older men and women remarry in Connecticut "to avoid raised eyebrows and knowing smiles and eyevrows and knowing smiles and cruel tongues of their neighbors," says Dr. Walter C. McKain, a University of Connecticut expert on aging. "Until this attitude is hanged, we'll always have Gretna changed, we'll always have Gretna Greens."

But generally, eloping has boiled down to a pastime for the rich who can afford to jet to Nevada or Mexico to change their

Psychologist Says Women Smoke To Feel Equal, For Contentment

By JOY MILLER AP Women's Editor

Why do women smoke? For the same reasons that men smoke, says a psychologist, Dr. Harold Greenwald, who believes in giving women the benefit of equality.

en the benefit of equality.

The search for contentment, release of tensions, the social aspects are all part of it.

"It used to be that almost only business women smoked," he says. And wicked ladies, of course.

"But the more women get involved in work—particularly in unsatisfying work—the more they seek satisfaction on a primitive level, the same as men," Dr. Greenwald points out.

When a woman is frustrated in her work she smokes or eats—these being the primitive, oral pleasures psychologists love to talk about—and smoking is better for the figure.

"Another reason women smoke," Dr. Greenwald consmoke," Dr. Greenwald consmoke," Dr. Greenwald con-

"Another reason women smoke," Dr. Greenwald continues, "is that they tend to be much more conformist than men, and smoking now is almost a social ritual like saying 'hello' and 'how do you do?' Women don't like to go against the norm."

ten says, with perhaps forgive-able smugness, that men don't like to see women smoke. Dr. Greenwald is not convinced this

"Some men like it. In the old days women who smoked were considered loose. Lots of guys like loose women — or there wouldn't be so many of them," he quips

he quips.

Dr. Greenwald, who is planning controlled research on three different methods of stopping smoking, says the problem with smoking, as with any other addiction, is that women find it enjoyable. And anything enjoyable is harder to break off.

He suspects that if non-smoknig were made sexy there would be a better chance of women giving up the weed. "Men, too," he adds.

The whole problem of addicns, of which smoking is the st common, interests the pipe-oking psychoanalyst.

'There's a new addiction, tran-"There's a new addiction, transquilizers, which may turn out to be the most dangerous of all. It's interesting, a cigarette is sometimes called the poor woman's tranquilizer," he says.

The recently released advisory committee's report to the surgeon general of the Public Health

Service, "Smoking and Health," says that research indicates smokers tend to be extroverts.

"Of course extroverts smoke," agrees Dr. Greenwald. "Smoking

agrees Dr. Greenwald. "Smoking is a social ritual as much as any-thing else." "The smoking woman is a so-phisticated, sexual woman. But you'll notice it's usually cigar-

"There are occasional cam-paign to interest women in pipes or little cigars, but they don't

go over.

"The pipe-smoking woman in
the public mind is a hardbitten,
hillybilly grandma. On television, sometimes, voodoo priestesses are seen smoking cigars. These aren't images to get involved with," he says with a chuckle.

The 'Green Door'

present year is past, there may still be matters unresolved during the four months just completed. This is the situation with the infamous "green door" at the Margaret I. King Library.

Located on the west side of the library, the door has been the object of epithets from freshmen to faculty, those unsuspecting souls who march brightly up to its shiny gold barhandle, take firm hold, tug-all in vain. This door has been locked since the new addition to the library was completed in the fall of 1962.

The concrete walkway to this doorthat-isn't-a-door is unequaled anywhere on the campus. One estimate is that at its widest point the sidewalk measures 15 feet. The walk is perhaps 25-30 feet long. Ouite an impressive entrance that leads no place!

The library staff contends that the addition of another checker at this entrance would be an additional expense they cannot bear. One wonders if perhaps a student could be employed here, if only for certain specified hours daily. At 85 cents to \$1 an hour, the total amount would be relatively small, and the convenience would certainly be worth the expense. A reshuffling of student employees at the loan desk might result in finding

his working hours at the side door.

As the University enters a tremendous building program to provide modern, convenient buildings, the matter of a conveniently situated, functional door which doesn't open seems incongruous. The frustration it causes is unnecessary, and the senseless waste of door and sidewalk calls for a solution. Why can't it come this

Letters To The Editor

Lack Of Communication To The Editor:

The theme for the IAWS convention to be held at UK during the first part of spring vacation is Communication: Its Art and Value. Apparently, however, there has been some lack of communication already concerning housing for the delegates of the convention.

The residents of Holmes Hall are being asked to serve as hostesses in absentia to the delegates. This is not "routine procedure." It is a rare privilege-and should be a welcome one-for the University to have been chosen to host such a convention; and along with this privilege goes the responsibility of housing the delegates and their sponsors (many of whom are deans of women from their respective colleges). Holmes Hall has been chosen for this purpose, not because it is "the largest and most convenient," as the Kernel editorial of Feb. 19 stated, but because it offers the most ideal facilities for this type

It is at this point that communication breaks down, for many women students are seemingly unaware that AWS exists to serve them. (For example, AWS proposed and put into effect the program of extended hours for women students during exam month last semester). Those Holmes Hall residents who do understand the purposes and functions of AWS and of the convention welcome the opportunity to do their part as members of AWS-for every full time woman student at the University is a member of AWS. When these purposes are more clearly understood, we feel certain that the lines of communication will be reestablished and that the women of Holmes Hall will demonstrate their maturity and understanding of offering their full support to

Civil Rights March To The Editor:

On March 5 there will be a peaceful march on the state capitol in Frankfort for the purpose of impress ing on the state legislators that the public wants a fair public accommodations law. It seems to me that there should be enough people at UK who are actively in favor of civil rights for a contingent of marchers to be formed.

Any student or faculty member who might be interested in marching should get in touch with me at my office in Room 10 in the basement of McVey Hall or call me at Extension 2138. In addition to hearing Martin Luther King and Jackie Robinson speak, the marchers will have the moral satisfaction of having participated in the most significant social movement of our time.

Malaysian Racial Tensions **Prevent Formation** Of All-Student Union

(Editor's Note: Jeff Greenfield, editor of the Wisconsin Daily Cardinal, has just completed a five-week tour of Southeast Asia as a member of a student delegation sponsored by the U.S. National Student Association and the Institute of International Education under a grant from the U.S. State Department.)

By JEFF GREENFIELD For Collegiate Press Service

KAULA LUMPUR, Malaysia Racial tensions in the newly-born federation of Malaysia have blocked attempts for an all-Malaysian student

The new nation, formed in September, 1963, includes the federation of Malayia, Singapore (a self-governing entity), and the ex-British colonies of Sabah and Sarawak. The federation includes Malays and Chinese, with an English educational and political system.

The Chinese in Singapore particularly (where they form a numerical majority) have strong ties to their homeland. While of a cultural, raththan political nature, these ties reflect their support of the Chinese government in power.

In today's world, this means that pro-Communist sentiment in Singapore is strong-so strong, in fact, that in 1961 the self-governing territory almost voted a Communist government into power.

The Chinese are fiercely determined to preserve their cultural identity; consequently, many Chinese students

Campus Parable

Where does the glory of our country lie? In the past-or in the future? Are we "on top of the world?" Or are we "on the way down?"

"For such a time as this"-what do we see?

By industry and ingenuity we have made progress and advances in every direction only to discover that it has really gotten us nowhere. With dollars we have tried to buy every thing from peace to friendship only to find that it cannot be done.

Everywhere there are ominous signs of a repetition of the national tragedy brought on by a people more interested in pleasure-giving comfort than in the peace-giving comfort of

"For such a time as this" nothing is more needed than attention to the admonition: "Let us test and examine our ways and return to the Lord!"

"For such a time as this" we need to see that turning to God with faith in Christ is the only strategy guaranteed to bring victory in our lifeand-death struggle with sin.

R. L. BENTRUP

Saint John's Luthern Church

attend schools patterned after the Chinese system, in contrast to the government supported British-system schools.

One Singapore college Nanyang University-is the point at which all these factors have joined to form the dilemma facing student leadership.

Nanyang is a political hotspot. Its students were among the most vocal supporters of the pro-Peking "Bharisan Socialiste" (Socialist Front), and the school has been branded a "hotbed of leftism" by most Singapore and Malaysian government officials including Tengh Abduhl Rahman, the federations prime minister.

When the federation was formed, the central government in Kuala Lumpur cracked down on Singapore's Nanyang. Most of the student council leaders were jailed; and the school has not received official accreditation, since the Malaysian government demands an ethnically integrated program, while Nanyang stands by the Chinese pattern of education.

Nanyang's student council is part of a Singapore union of students. The Malayan union, which wants to federate with the Singapore union, cannot do so because to federate would include Nanyang as part of the all-Malaysian union; and the government of Malaysia will not permit such a union.

In sum, the Malaysian government's policy against narrow ethnic education has stymied the efforts at student merger because just such an ethnic school is part of Singapore's student union.

The Nanyang case is not the only example of friction between students and the central government. The University of Singapore, a British-style school, has recently taken issue with the governmen's "short-listing" policy, under which students are screened for political reliability. After the vicechancellor resigned in protest over the government's stand last Novemthe students staged a one-day boycott of classes.

Such dissent is not found at the University of Malaya in Kuala Lumpur (the federation capital); as the government seat, there is far less freedom to stray from the path of orthodoxy. Politics are not in great evidence in Kuala Lumpu student life.

For the present, the major problem in student politics is the inability to bring about an all-Malayian studet union. Until Nanyang settles its difference with the central government, such a merger is highly unlikely.

Greeks: A National Controversy

(Editor's Note: The following is the first in a series of articles dealing with the Greek system-here and at other colleges and universities. Today we are publishing the first half of an Associated Press feature, written following an extensive survey of fraternities and sororities nationally. tionally.)

By SID MOODY Associated Press Writer

Few campus characters are more loved and loathed than that enduring Greek-American institution, the college fraternity.

Along with the New Deal, recognition of Red China and pre narital sex, it remains a standard topic of campus debate.

To its foes, the Greek letter fraternity is a relic hopelessly overgrown with ivy, featuring orgies on every floor and supported by snobbery, bigotry and beery-eyed alumni who never quite left their sophomore year.

To its friends, it is an invaluteacher of self-reliance, the social graces, democracy and scholarship all welded together by that mystical bond called brotherhood, a togetherness as brotherhood, a togetherness ancient as the herd.

This is a sincere, often heated argument, but one normally confined to college bull sessions, debating halls or alumni magazines between Greeks (fraternity members) and non-Greeks (all the

Then, two years ago, Williams College gave the Greeks one of their sharpest setbacks. Williams a genteel men's school rich in fraternity tradition, liberal arts. and conservative alumni, decid its 15 fraternities would have to

Williams' action comes at a time when fraternities (and their sisters, sororities) are present in record numbers on American campuses. There are 262 national collegiate Greek letter societies. They have 16,006 chapters and a membership of grads and undergrads of 6,773,253. There are traternities for less Fillingings. Williams' action comes fraternities for Jews, Filipinos, engineering students, Poles, Ne-groes, and so on.

Yet while at a numerical and fiscally prosperous peak, fraternities are being increasingly challenged to justify themselves in an age that has seen soldiers marching to integrate a university and in a country sensitive to the egalitarian mood of the world's new nations.

At a time when the nation cries for brains, the hand-wring-ers see fraternities as anti-in-telectual playgrounds where the bonds of brotherhood tie knots of conformity and the climb to the social graces too often stumbles into a trap of hooch, hazing and—well, the Greeks have a word for it.

Is this a valid profile of the Greeks? To find out the Associ-ated Press polled 150 campuses across the nation. The fraternity across the nation. The fraterinity emerges as particularly strong in the Midwest and South, under fire in the Northeast but almost everywhere being reformed in varying degree either from within or without.

On one coast, at Oregon State, they are "welcome, not just tol-erated, for their generally wholeme environment and valuable some environment and valuable housing." On the other coast they may be banned in Boston. Boston University Dean Staton R. Curtis says "time is running out, I fear," citing fraternities' "fiscal mismanagement, low ac-demic achievement and failure to choose a representative membershin." bership.

Dership."

The average fraternity house (they can be worth as much as \$300,000) may have 50 or 50 members, half of whom live in, a drinking room lined with irreverent cartoons of the brothers, a secret meeting or "goat" room perhaps with a skull or two or

such ceremonial equipment. If have a good cook, living can be

And the living can inspire lyr-

"Brotherhood isn't just a 50-50 deal. It's 60-60. It's that extra 20 percent that really counts."— Fraternity Handbook at Arizona State . . . Or scorn:

"(Greeks) are colorless, person-"Greeks) are coloriess, person-ality-less men who feel confident wearing a pin. The university is paternalistic enough but the Greeks want to go further and find their childhood"—a German exchange student at Michigan

. Or indifference:

"An alumnus owes loyalty first to his college, then to his class and lastly to his fraternity— if he can remember the name of it"—a Dartmouth graduate.

If the ancient Greeks invented If the ancient Greeks invented democracy, some say their latter day fraternal namesakes have let the flame go out. "I do not see how a fraternity can be truly democratic. They are selective by nature, by history, by tradition and by necessity," says Dr. J. Earl Moreland, president of Randalph-Macon. dalph-Macon

Mrs. Joseph Davis, executive secretary of alumni of the Omaha University, sums up succinctly for the contrary minded: "The Greek system is a demoratic process under the constitution. Voluntary association is a right."

This argument is as old as fraternities (Phi Beta Kappa, the first, was founded in 1776 at William and Mary) and still unsettled. But while the fraternities still insist on their right to pick and choose their brethren, the Associated Press survey shows a definite trend to more liberal values in selection.

A Duquesne official was rather surprised recently to see a Chinese student wearing the jacket of a predominantly Polish fraternity. Restrictive fraternity clauses were outlawed at Rut-

gers in 1958. Many houses there are now integrated. In 1952 Wisconsin University had 13 chapters with discriminatory clauses. None do now. At Dartmouth, under-graduates at their own initiative voted to do away with restrictive

the AP survey: That much of the leadership in liberalizing frater-nity membership comes from the students themselves.

At Stanford the local Sigma Nu chapter quit the national last fall because of its discriminatory clauses. Stanford chapter president Thomas Grey explained "it is becoming increasingly difficult to find a good pledge class which is willing to accept membership in an organization which denies admittance on purely racial grounds."

Five University of Virginia stu-dents chartered a plane to fly to Yale to protest the imminent pledging of a Negro to the Delta given a hearing. But the Negro was pledged.

Such independence occasionally brings a parental rebuke from national headquarters. A sorori-ty at Beloit College was suspend-ed by its national because it pledged a Negress. A fraternity at Williamette University report-edly wanted to pledge a Negre edly wanted to pledge a Negro but didn't, feeling it was fore-gone the national would no agree.

Yet as fraternities are opening their doors more widely, so too are the nationals. The few that have discriminatory clauses have reworded them ambiguously. Sev eral states, including California and Oregon, have outlawed fra-ternity discrimination at state

But what of fraternity selec-tivity per se, based not on any racial or religious basis but just on whether or not the brothers like your looks?

On a large Big Ten campus, where rarely more than 30 percent of the undergraduates Greeks, the non-Greek can have uncaring whether hellenic pleasures may have been denied him. But on a small campus, with a high percentage of Greeks, rejection can wound, deeply.

"The hurt hits too many people. It isn't worth it," says John Steinbrunner, a Stanford fraternity man.

ternity man.

"Sure it's hard on the guys who lose," answers David Beim, a classmate and Rhodes Scholar, "but we can't all be winners."

Adult life, say fraternity sup-porters, is one long process of rejection and acceptance—in promotion on the job, joining a country club, picking one's friends. Why not begin adjusting to the bitter truth in col-

Because it's wasteful. It distracts the real purpose of a college— to educate. And, anti-Greeks argue, the fraternities by selectivity too often overlook the more retiring blossom, the very one their comaraderic could best purture.

Aware of these imperfections in varying degrees, a significant number of colleges, fraternities and undergraduates have tried reforms of the system. On some campuses rushing has been postcampuses rusning has been post-poned to sophomore year so as not to add to the freshman's burden of academic adjustment. Bowdoin, on the other hand, rushed freshmen before fall classes begin so students can buckle down to class without con-criptor themselves with the deerning themselves with the de-ceptive "courtship" or prolonged

University of Maine fraternacertain scholastic average before they may pledge.

Fraternities hold their own study hours for backsliding brothers. Nationals offer prizes and scholarships for excellence. The National Interfraternity Conference eagerly cites studies that show:

1-Fifty percent of all fra-

ternities are above the over-all average of their campuses. (Ten years ago only 40 percent were). 2—The rate of dropout — an alarming development in contem-

porary higher education—is more than twice as high among men at a non-fraternity campus as among members of national fra-

While the Greeks are getting better marks on their report cards, their behavior, too, ap-pears to be improving. There is pears to be improving. There is fierce competition today to get into college, to stay fn and to get high enough marks for graduate school. At Williams, for instance, where up to 80 percent of the seniors go on to grad school, the average of the entire college would have qualified for the dean's list 10 years ago. Such academic pressures have had their ademic pressures have had their sobering effect on the Olympian highjinks of Greek row.

highjinks of Greek row.

"The Mickey Mouse stuff is dying out," comments campus editor Jeff Greenfield of Wisconsin of the decline of fraternity ritual and hazing. "Help weeks" have replaced most of the barbarites of the old initiation "hell weeks." At Southern Methodist University fraternity initiates helped catalog a small town library. At Beloit they polished firetrucks. Some University of Kentucky pledges splashed paint on a prominent part of an equestrian statue on the courthouse trian statue on the courthouse lawn but others painted an or-phanage instead.

Some incidents persist, At Texas Christian an electric "hotshot" used to prod cattle at stockyards was turned on pledges during initiation. The president of the Oregon University Interfraternity Control quit in project of initial Oregon University Interfraternity Council quit in protest of initiation abuses. At the University of Hawaii officials clamped down after some boys were found unclothed on campus one night during initiation, and now the severest hazing penalty is to force pledges to wear jackets and ties to class, hardly a burden elsewhere but onerous midst South where but onerous midst South Seas informality.

Indeed, things have quieted down so much at LSU that a bored chaperone who ducked out of a dance with his wife for a quick nip was denied re-entrance by the students They smelled liquor on his breath.

Yet some oases still hold out Yet some cases still hold out the pleasure of forbidden fruit. Alpha Tau Omega beckons pros-pective brothers in the Stanford Fraternity Handbook with the lure of a "full and varied social program highlighted by the win-ter sewer party and the spring hog wallow." And at an Eastern college the customary climax of hog wallow." And at an Eastern college the customary climax of recent houseparties has been the 11 p.m. appearance of a chap who ran 'mongst his brethren and their dates as naked as Hermes, another Greek.

If it is fashionable in intelle tual circles to knock fraternities, perhaps the most fashionable thing of all to say against them is that they force conformity.

"They are an extension of the family," said a bearded student at Rutgers. "They tell you how to dress, what to eat, whom to associate with."

"By living with your brothers," says the fraternity handbook at the University of Cincinnati, "you will learn to express your own opinion and when to subor-dinate yourself to the will of others."

There are those who feel such control of the individual by the group is tragically unfortunate, coming as it does at a time when coming as it does at a time when the student is as free as he will ever be to explore and to learn, to be himself. They could recite the case of a Greek at Illinois who was forbidden by his broth-er to date a girl who not only didn't belong to a sorority with sufficient status, she didn't be-long to one at all. By some back-stage diplomery she was pledged stage diplomacy she was pledged to an acceptable sorority and romance resumed.

Lancaster Schedules 22 Games

A 22-game schedule plus participation in a round robin tournament at Ft. Stewart, Ga., faces the University's baseball varsity in 1964, it was announced today by Atheltic Director Bernie Shively.

Of the regularly scheduled 22 games, 16 will be Southeastern encounters with UK meeting Vanderbilt and Tennessee five times each, Georgia, Florida and Auburn twice each.

The Wildcats, coached by Harry Lancaster open the campaign on the road against Georgia in a two game series on March 16-17 and close out the season a little over six weeks later against Vanderbilt May 1-2 at Sports Center Field. The early windup is necessitated by the fact that the University calendar calls for University calendar calls for school to end on May 9.

Last season the Cats finished the campaign with an 11-11 over-all mark and a 7-9 slate in the SEC, although they were in the thick of the fight most of the

During the 1963 campaign, UK edged Vandy three games to one, tied Tennessee 2-2, lost to Florida 0-2 and broke even with Georgia Tech (1-1) and Georgia (1-1).

After a three year absence, Georgetown College returns to the Kentucky schedule along with two other newcomers—Carson-Newman and East Carolina, both of whom are entered in the round robin along with Georgia South-

99-79 Victory Puts Cats In Driver's Seat

By RICH STEVENSON
Kernel Daily Editor
Adolph Rupp's Century Express was stopped a point short of the 100 figure Saturday night, but nobody minded. The 99-79 win over Auburn coupled with losses by Georgia Tech and Tennessee projected the Cats into the undisputed SEC

A win in last night's UK at Alabama battle by the Cats would clinch at least a tie for the championship. The Cats were 10-2 entering the 'Bama battle. Tech was 9-3 and Tennessee has

The ole fireman Ted Deeken and his senior cohort Cotton Nash fired through 67 points as they engineered the 20th victory of the season.

Deek fired through 22 first-half points and the Nash Earth.

Deek fired through 22 first-half points and the Nash Ramb-ler scorched the nets for an equal number in the second stanza. Deeken's total came on 14 of 30 from the field and six for six from the foul line. Nash hit 13 of 23 from the field and only seven of 11 on the free throw

The Cats just missed hitting 50 percent of their shots as they connected on 39 of 80 shots.

Larry Conley hit for 14 points and Charles Ishmael scored 12 before fouling out late in the

game.

All five Auburn starters fin ished in double figures. Predd Guy led the way with 21 points. John Blackwell tabbed 18, Larry Chapman had 14, Joe Newton 12, and Lee Defore 11.

The Cats' battle with Tennes see at Knoxville Saturday night will end the conference schedule.

will end the conference schedule. St. Louis will be at the Coliseum next Monday to end the regular season.

Judges To Select **NewCheerleaders**

Twenty-six finalists will per-form before judges from over the state in cheerleading finals at 6:30 tonight in Memorial Coli-seum. Eight regulars and two alternates will be chosen from the

group.

The girls are Candy Johnson,
Paula Choate, Ann McDough,

We're Goin' To Kansas Ci

Seats Are Priced High For Clay-Liston Fight

Associated Press Newsfeature
Dear Boss:
I hope you don't mind it if
we skip the coming heavyweight
championship fight in Miami
Beach's Convention Center. We
know a lot of people who will
skip it. Nobody has been asking
us for a free ticket.
People used to spend \$50 to
\$100 for front row seats at a
championship fight. They were
something special, like movie
people and restaurant owners.
But now, if the opening line
holds up, only millionaires can
ford those front pews. The best
o seats have been priced at
\$250 each to see champion Sonny
Liston, who hardly ever fights
at all, meet the talking champion in the world of sports who
is known as Cassius Clay.
At these prices it would be
risky for a man of means to take
his wife. If it's a one or tworound fight, which it figures to
be she'd nag him for life. She
might say: "Instead of wasting
all that money on one fight
you could have bought me one
we fur coat. It would last longer, too."

er, too."

It might be very embarrassing to sit in the working press in front of all those millionaires paying \$250. What if Liston pops Clay with the first punch? Even writers get excited and they sometimes stand up and block the view of the paying custom-

Clay is being billed as "the onfident challenger," and Liston s "the proven champion." Nobody but Clay actually knows

Nobody but Cary actuary some-thing that hides his true feelings. And nobody, but maybe Floyd Patterson, knows how much dam-age Liston can do with one

punch.

We hope to be on the way to one of the major league baseball camps the night of the fight but from here the Liston-Clay match looks like another Patter-

match looks like aboute Packson Hight.

That one, in 1987, was so one-sided it was pathetic. We can't see going so far for a two-minute event. I'm a nine-inning

How can anyone honestly say the fight will go more than one or two rounds? Liston hasn't

Pena Won 12
Orlando Pena won only 12
games for Kansas City last season but three of them were shutouts, He lost 20 times despite a
3.69 earned run average.

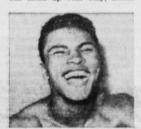

Startling National Survey: | ARE ATHLETICS **CORRUPT?**

LEARNED ABOUT
FOOTBALL"

NOW ON SALE!

fought beyond two rounds since
March of 1961 when he stopped
a Howard King in Miami Beach
in three rounds. He simply refuses to carry an opponent.
This Liston is a monster. Twice
he stopped Patterson in one
round. And Patterson would be
favored in a Clay fight right now.
Clay has been running three

Clay has been running three and sometimes five miles. Boss, this is not a footrace. It's sup-posed to be a fight. And anyway the huskier and heavier Liston will catch up with Clay, unless

CASSIUS CLAY

they use an oversized ring with no corners.

"The fight figures to be a farce," says Murray Goodman who has promoted recent fights in Atlantic City, New York's Coliseum and Teaneck, N.J. "It lought to be held in Atlantic City with a \$50 top and a \$5 bottom."

It looks like a bargain for closed circuit television with prices probably scaled from \$2 to \$10 around the country. But I wouldn't bet on this being a bargain at any price.

Too many people remember the first Liston-Patterson fight in the fall of 1962. We were at an outdoor movie and you could

an outdoor incive and you could see the rain better than the pic-ture on the large screen. Nobody saw the punch and Patterson went down before I could close the car window to keep out the

This fight may be a gory me So boss, if you don't mind I'd prefer to read about it in the next day's paper.

Sincerely, FRANK H. ECK

BOARD IGNORED 'Off Center' Valentine Goes To President

The Board of Trustees was overlooked when the Ashland Center "Off Center" passed out a valentine to Dr. John W. Oswald in their Feb. 14 issue.

Following Center Director Dr. Robert Goodpastor's remarks to the Board Friday, Dr. Ralph Angelucci, Board chairman, complained "that we didn't get a valetine" from the student paper.

Dr. Goodpostor then asked the "Off Center" reporter at the meeting to take note of the

oversight.

"Yes, I could not have done
it without the Board's approval,"
Dr. Oswald said.

The Ashland paper had presented Dr. Oswald the front-page
valentine for the recent decision
to allow the centers to keep a
greater share of student fees.

After Mishaps

13 Attend Panhellenic Conference

By MOLLY McCORMICK Assistant Managing Editor

The old superstition has it that the combination of Fridays and thirteens always produces male-volent consequences for innocent, yet helpless, individuals.

And so it seemed to 13 travel-weary women from the Univer-sity last Friday. The forces of fate appeared determined to thwart the progress of the group in its journey to Oxford, Miss., the scene of this year's South-eastern Panhellenic Conference.

A series of late planes, nearly-missed connections, lengthy hold-overs, and wrong turns comprised an exciting yet extremely exasperating experience for the rep-resentatives of nine UK sorori-ties and their adviser, Mrs. Betty Jo Palmer, assistant dean of

The group converged at Blue Grass Field at noon Friday. Right Grass Field at hoon Friday, Right away ominous forces were evi-dent as most of the travelers dashed to the mechanical insur-ance agent standing in the cor-ner and stuffed quarters down its throat.

Across the Street

The trip began well enough
the first lap of the journey,
from Lexington to Louisville, was from Lexington to Louisville, was executed in 29 short minutes amid snow flurries and fog. The situation was looking bright and so were the travelers, happy in their anticipation of spending a weekend at the famous, even infamous, campus of the University of Mississippi.

sity of Mississippi.

Then came the blow. The plane which was to have arrived at Standiford Field at 2:10 p.m. had been delayed by snow in the North and would be at least two hours late. During the four hour wait that ensued, the travelers, to curb impatience, trooped about the airport, generally creating glances of wonder from onlookers.

After what seemed an eternity, After what seemed an eternity, the tardy plane arrived. Heads were counted and, in keeping with the course of the day's events, one member of the party was absent. Just in time, however, the lost traveler ran down the terminal hall to join her companions at the gate

At last the second lap of the trip was under way. During the

flight to Memphis, the travelers were quiet, each seeking recuperation from the trying events that

ation from the trying events that had preceded.

Memphis was reached at 6 p.m., Central time. Preparations were then begun for the third, and final, stretch of the trip. A rent-a-car agency provided the means of transportation for the last lap. Spirits once again ran high as the delegates headed out of the city.

city.

As fate would have it, though, the cars were separated in the traffic, and one car, even after receiving the correct directions twice found itself on a muddy side-road instead of Interstate 55. However, after much searching the way was found and the journey was completed in two

hours.

The group had no trouble finding the Ole Miss campus, but, once there, it took a half hour of driving in circles and making numerous inquiries to locate the hall where the meeting was alveady in session.

The UK delegation arrived just in time for the welcoming and opening address given in soft, magnolia-type voices of the Ole Miss coeds. The Chancellor of the University, Dr. John D. Williams, was also present to exliams, was also present to ex-tend greetings. He included in his welcome a brief summary of the highlights in the history of Ole

Following the Chancellor's ad-Following the Chancellor's address, Katherine Rea, Dean of Women at Ole Miss spoke to the delegates from the \$5 schools that were present. Her talk centered around the conference theme, "We Need Each Other" and as she spoke about Panhellenic cooperation, Miss Rea, emphasized the need to evaluate the important phases of living and learning. and learning.

The remainder of the evening was spent in getting acquainted with women from all over the region. The UK delegates, dispersed in various dorms and sorority houses, found the hospitality true to Southern tradition. Saturday's activities began after breakfast with a general meeting attended by all the delegates. From there, the women separated into four discussion groups where The remainder of the evening

the conference theme was deve-loped and commented upon in

The first group discussed "We need each other for the maximum development of our opportunities." Members of this group emphasized the responsibilities of convictions of the second statement of the s sororities as a group to stress learning for the sake of gaining knowledge, not just for making grades, and to develop each mem-ber's potential to the fullest.

"We need each other to con-"We need each other to con-tribute to the colleges' central purposes," the topic of the sec-ond group, brought forth dis-cussion concerning the vital role which the united groups of Greeks play in campus leader-ship, academic achievement, and progress in the colleges' various

A third group discussed "We A third group discussed "We need each other to prepare members to be responsive to the needs of our times." In developing this topic, the group of women stressed the job that all sororities face in helping members to develop well-rounded, healthy attitudes toward life after college days.

The fourth group had as its main topic of discussion "We need each other to cope with the need each other to cope with the problems confronting the fra-ternity world today." After a speech by Flora Rawls, dean of women at Memphis State Uni-versity, the women in this group talked about the need for unity among all Greek groups in set-ting forth their nursess and acamong all Greek groups in set-ting forth their purposes and ac-complishments, while working to minimize their shortcomings be-fore the world.

A tired, not-so-bright-eyed group of UK sorority girls, plus adviser, left Oxford Sunday mor-ning, faced again with the pros-

ning, faced again with the pros-pect of travel hazards, but eager n and report to their the ideas expressed at return

to return and report to their chapters the ideas expressed at the conference.

The girls who represented UK at the convention were, Karen Pugh, Pat Fowler, Molly McCormick, Cheryl Miller, Mary Garland Goodlet, Sally List, Susan Sawyer, Marcia McKinzie, Mary Pitman, Elly Chaffie, Panhellenic President Dororthy Bartlett; and Panhellenic President-in-Training, Mary Jane Britton.
